Our pledge

CSR commitments

A lighter footprint, for the region and for your group.

Green Key certified since July 2026

The label recognises the estate's environmental approach. For your gathering, draw on practical actions: sorting waste, managing consumption, dining and travel planning.

On the estate

Collection points guide waste sorting. Monitoring water and electricity, saving devices and in-room energy management help reduce waste. Green spaces are maintained without pesticides.

With your group

Match breaks and meals closely to actual numbers. Prefer reusable materials and plan travel in advance. There are 4 charging points on site; ask reception about terms of use.

At the heart of the cycling routes

Join Sète's cycle routes and the Lido greenway towards Marseillan, between beaches and lagoon. Our team helps choose a ride suited to your stay.

A stop designed for cyclists

Secure storage, a repair kit and washing area: useful services are on site. Arrange bike hire and luggage transfers with our partners through reception.

At a glance

Arrive by train, walk or cycle, and hold meals and meetings on site: let's build a stay together that reduces travel.

Everything on site, less travel

Meeting rooms, bedrooms and dining on one estate: your group keeps a shared rhythm with fewer transfers.

An event aligned with your commitments
